12/05/20 Received the following reply.

*Hi Ray*

*Hope you are keeping safe and well at this time.*

*Our instruction at this time is to not hold site meetings at this time, however; that doesn't stop me assessing the situation. Do you have a plan or photograph (preferably with dimensions) of what you are looking to provision and any specific view in relation to locating them. At first glance there is not a lot of room on the west side of the carriageway and preferably I presume you would want them opposite each other as a form of gateway?*

*Throw at me all your ideas and viewpoints and I will gladly take a look for you.*
