### Replacement Trees for A56

28/03/19 – Following email received from Simon Twigg.

#### *Good morning Ray*

*As spring is now upon us and given the sizable plantings being offered from the supplier, I would have reservation on the survival and successful establishment of the plantings should they be installed within this following month. Therefore I would recommend if funding can be secured, that any planting be scheduled to be undertaken at the start of the next planting season this year. Should you wish to discuss the above matter, please do not hesitate to contact me.*

*Kind regards*

*Simon Twigg*
